

Return Slide Idler

Dependable Alternative to High Maintenance Idlers

The Return Slide Idler replaces standard return idlers. It eliminates the problem of frozen return rollers in those hard to reach areas around the belt drive and take up.

The Return Slide Idler features a slick polyethylene surface that allows the belt to slide easily across it.

Eliminate problems with frozen idlers and reduce downtime for maintenance. Switch to dependable Richwood Return Slide Idlers.

Rely on Richwood!

- *UHMW wear segments*
- *no moving parts*
- *easy to install*
- *reduces downtime*
